Kindly follow the below instructions:

1. You will be able to download the apps from google playstore
2. Need to have Android and IOS devices whose version should be 9 and iOS 12 above.
3. Ensure that no device has both Driver and Passenger Apps installed together. Driver App should be on one device and the Passenger app on the other
4. Need to enable Google play server for a location updates. Enable google location settings (Settings->locations)
5. If you already installed our application then kindly uninstall the application from your android mobile and install the new app from playstore.
6. Make sure the data connection must be High bandwidth.
7. Driver application should have a minimum 50% battery and good data internet connection using 3G and above internet connection.

Thanks,
Unicodel
